Acts & Reports collected by Mr Ramaswamiengar show that compulsory vaccination is in force in most parts of the Presidencies of Bombay & Madras including even some Unions in the latter. I am afraid that legislation in Mysore can no longer be safely put off. What is required is (1) an enabling Regulation ⊗(2) a strong & judicious introduction of it in such centres as Bangalore Mysore & the Gold Fields wherever there is pressing need for it. Under this law it is impossible to cope with the evil so forcibly brought to notice by Col Smyth both officially & demi-officially. With a scheme of rewards ~~even~~ calculated to lead to beneficial results. ⊗

To 2d Sr.

Pending legislation 7/2/06. for every person vaccinated a reward of 2 annas is paid in the Gold Fields & Civil Stn

Gold fields and in any other local area in which such a measure may be found necessary, temporarily or otherwise. All that is necessary in each case is a Notification specifying the local area and the date of operation, and declaring vaccination compulsory in that area. The details may be left to be dealt with from time to time in rules made by Government, or, as in Madras*, in by-laws made with the approval of Govt by the "local authority." (For def.ⁿ of this expression, vide clause (20) of Sec. 3 of the General clauses Regn, III of 1897)

The draft Regulation does not repeal or modify, nor is it inconsistent with, any of the Scheduled pre-Regulation laws; and to that extent, therefore, it does not require the sanction of the Govt of India.

Draft Regulation.

Preamble. Whereas it is expedient to make provision for compulsory vaccination in Mysore; His Highness the Maharaja is pleased to enact as follows:-

Short title. 1 (1). This Regulation may be called "The Mysore Vaccination Regulation, 1906."

Extent. (2) And it extends to the whole of Mysore.

Government may declare vaccination compulsory in any local area. 2 (1). The Government may, by notification in the official Gazette, declare that vaccination shall be compulsory in any local area from and after a date to be fixed in such notification, and under such rules as may from time to time be made by Government, or under such by-laws as may, with the approval of Government, be made from time to time by a local authority empowered by Government in this behalf.

(2) The Government may, in like manner, cancel or modify any such declaration.

Penalty (3) For every breach of a rule or by-law under sub-section (1) the offender shall be liable to a fine not exceeding fifty rupees:

Provided that no penalty shall be imposed on any person by reason of non-vaccination if he has already had small-pox.

20.2.06

Submitted to His Highness.

E

The draft Mysore Vaccination Regulation, providing for compulsory vaccination in Mysore, may be approved.

Paper under disposal

The need for this legislation has arisen from the fact that stray cases of small pox are prevalent at Robertsonpett, and the people would not allow themselves to be vaccinated. The Senior Surgeon considers it therefore necessary that vaccination should be made compulsory in the interests of the Mining area.

The proposed Regulation does not repeal or modify any Scheduled pre-Rendition laws and does not therefore, require the sanction of the Government of India.

From

Lt. Col. John Smyth M.D.,I.M.S.

Offg.Senior Surgeon and Sanitary Commissioner with the Government of H.H. the Maharaja of Mysore, Bangalore.

To

B.K.Venkatavaradaiengar Esqr.,

Secretary to the Government of H.H. the Maharaja of Mysore, General and Revenue Departments, Bangalore.

Sir,

I have the honor to invite the attention of His Highness' Government to the fact that small pox has killed over 100 persons in Bangalore City since 1st July this year. During the same period plague has killed only about 80 persons. So it is time to turn attention a little to small pox, especially as we know that practically all these deaths from small pox might have been prevented. It is the poor who suffer most. We cannot -- get at them by preaching. They postpone vaccination indefinitely when proposed to them by the Vaccinators, or even by the -- District Surgeons or by myself. One of the District Surgeons, specially entrusted by Government to see to this work writes to say that his preaching is useless: that compulsory vaccination is the only real remedy. His Highness' Government are well -- aware of my own views on the subject. Talking to a native -- gentleman in high judicial position in the State the other day

His Highness' Government - I beg it on the interests not only of the hundreds that must die in Bangalore, but in that of the -- thousands of His Highness' subjects that must perish of small-pox annually throughout the State unless Government step in and save the people from themselves - by legislation in the direction of compulsory vaccination.

I have the honor to be,

Sir,

Your most obedient servant,

Lt.Col.I.M.S.

Offg.Senior Surgeon and Sany.Commr.

BANGALORE, THURSDAY, APRIL 5, 1906.

PART III.

Legislative Measures and Rules thereunder.

REGULATION No. I OF 1906.

(PASSED ON THE 16TH DAY OF MARCH 1906.)

A REGULATION TO MAKE PROVISION FOR COMPULSORY VACCINATION IN MYSORE.

Preamble. Whereas it is expedient to make provision for compulsory vaccination in Mysore; His Highness the Maharaja is pleased to enact as follows:—

Short title. 1. (1) This Regulation may be called "The Mysore Vaccination Regulation, 1906."

Extent. (2) And it extends to the whole of Mysore.

Government may declare vaccination compulsory in any local area. 2. (1) The Government may, by notification in the official Gazette, declare that vaccination shall be compulsory in any local area from and after a date and during a period to be fixed in such notification, and under such rules as may from time to time be made by Government, or under such by-laws as may, with the approval of Government, be made from time to time by a local authority empowered by Government in this behalf.

(2) The Government may, in like manner, cancel or modify any such declaration.

Penalty. (3) For every breach of a rule or by-law under Sub-Section (1) the offender shall be liable to a fine not exceeding fifty rupees.

Provided that no penalty shall be imposed on any person by reason of non-vaccination if he has already had small-pox.

P. N. KRISHNA MURTI,
Dewan of Mysore.

Order No. J 3049-68 Dt 4/May/08
Legis 21-05.

The attention of the Deputy Commissioners and of the Presidents of the Municipal & Local Boards is invited to the provisions of the Mysore Vaccination Regulation No I of 1906, which has been published in Part III of the Mysore Gazette, dated the 5th April 1906 and in two ~~other~~ subsequent issues. The need for this legislation has arisen from the fact that cases of small pox were reported to be prevalent in an epidemic form in the Kolar Gold Fields; and it is intended to provide for a sparing, judicious & temporary introduction of compulsory vaccination to such large and important centres as Bangalore, Mysore and the Kolar Gold Fields, whenever the local authorities think that there is a pressing need for it.

With the above object in view, the Government have enacted in clause (1) of Section 2 of the Regulation that they may, by notification in the official Gazette, declare that vaccination shall be compulsory

in any local area from and after a date and during a period to be fixed in such notification, and the Deputy Commissioners are accordingly requested to report to Govt, whenever a necessity arises for enforcing the Regulation in any local area of their Districts.

The Senior Surgeon & Sanitary Commissioner is also requested to report what arrangements exist for guaranteeing the purity of the lymph supplied from the Mysore Govt Vaccine Institute and what arrangements are necessary to minimise chances of contamination in the course of the manufacture.
